EDITORIAL INDEX

Editorial highlights from 1988 issues

Artificial intelligence

Knowledge-engineering minus the mystery ..... Feb. p60
What AI users really want ..... Apr. p28
PCs gear-up for AI delivery ..... Apr. p51
A look at expert systems ..... Nov. p23
Explosive growth for expert systems ..... Dec. p27

Computer environment/security

How to cope with the computer security threat ... Feb. p37
Relying on the other guy? (backup agreements) .. Mar. p36
Making LANs secure ..... Apr. p72
How to plan for the unexpected ..... May p36
Backup power from a UPS ..... May p42
Are you ready for third-party maintenance? ..... Sep. p46
It's time to automate security ..... Sep. p96
Technological vulnerability ..... Oct. p96

Computers in action

Oracle RDBMS at Volkswagen Canada ..... Feb. p41
Point-of-sale technology at crossroad ..... Feb. p48
Computers help run Calgary Olympics ..... Feb. p53
Depository takes stock of DP systems ..... Feb. p63
Canadian Tire tries laptops ..... Feb. p64
Taking care of hospital data ..... May p53
Grain growers automate general ledger ..... Jun. p36
DB tracks secrets of dinosaurs ..... Jun. p56
System tunes-up auto shops ..... Jun. p65
Mapping new territory ..... Jul. p44
Milking profit from computers ..... Jul. p45
Managing maintenance with computers ..... Aug. p48
If CIM's the answer—what's the question? ..... Sep. p42
Honing the edge with technology
(Texaco Canada) ..... Sep. p69
Sunoco revamps systems ..... Oct. p101
Novel system animates weather information ..... Nov. p48
Sudbury logs on ..... Nov. p73
'Alex' ready for home videotex market ..... Dec. p67

Data communications

More integration will pace datacomm ..... Feb. p25
Heading for a new synergy (ISDN) ..... Mar. p29
The facts on PC-based fax ..... Mar. p60
ISDN bell may toll for thee ..... Mar. p92
Clearing the networking confusion ..... Apr. p30
Before selecting a local area network ... . Apr. p56
What to know about cabling systems ..... Apr. p64
Linking LANs to 'enterprise network' ..... Apr. p69
Making LANs secure ..... Apr. p72
Lots of wire in your future ..... May p27
Matching networks with business needs ..... May p40
About facilities management systems ..... May p48
Is anyone listening? (telecom regulatory issues) .. May p54
Ending the 'war of wires' ..... Jun. p27
Using PBX for data ..... Jun. p44
Dynamic bandwidth allocation needed ..... Jul. p29
Are you ready for computer conferencing? ..... Jul. p31
A new meaning for 'user friendly' ..... Aug. p21
Better man/machine interfaces are coming ..... Sep. p25
What's ahead for electronic mail? ..... Sep. p76
Bridges help link technologies ..... Oct. p29
Modems: What to look for ..... Oct. p104
Help Wanted: datacomm systems integrator ..... Nov. p27
Why have data standards? ..... Nov. p56
Datacomm maintenance still a concern ..... Dec. p25

Forecasts

Watch SAA become a blueprint ..... Feb. p23
Downsizing marks new industry direction ..... Feb. p69
Future of multi-user desktop publishing ..... Apr. p84
'Procedural processing' in your future? ..... Jun. p28
Which way for the Fourth Generation? ..... Jun. p69
A rosy outlook for Big Blue ..... Sep. p25
EDI set for bigger manufacturing role ..... Sep. p64
What's ahead for electronic mail? ..... Sep. p76
IBM pricing is carrot-and-stick ..... Dec. p23
Industry review & forecast, 1989 ..... Dec. p32

Graphics

Business graphics ready for new move ..... Mar. p32
New technologies brighten color printing ..... Apr. p52
Workstations roll-up their sleeves ..... May p28
Taking the right view of monitors ..... Jun. p40
Simulating reality with visual computing ..... Jul. p36
How to overcome DTP limitations ..... Jul. p52
Why science needs high-performance graphics .. Aug. p32
Concept to prototype by desktop CAD ..... Aug. p36
DTP: Make designs fit corporate profile ..... Aug. p54
DTP hits raster-image processor bottleneck ..... Oct. p84
Personal 3D workstation for graphics jobs ..... Oct. p87

Information management

Distributed system management ..... Feb. p56
Recognizing a good maintenance programmer ... Feb. p73
CASE: programmers becoming endangered
species? ..... Mar. p27
Managing information in workstation
environment ..... Mar. p48
Putting the 'maintenance myth' to rest ..... Mar. p70
What's behind those maintenance charges? ..... Mar. p71

Putting the 'maintenance myth' to rest ..... Mar. p70
What's behind those maintenance charges? ..... Mar. p71

Will you be one of the survivors? ... Apr. p27
MIS needs a boardroom seat ... May p25
'Procedural processing' in your future ... Jun. p28
Our technology needs a human face ... Jul. p32
Why MISD needs an 'E-team' ... Jul. p54
MIS Manager: Can you communicate? ... Aug. p50
It's becoming a matter of survival ... Aug. p51
Data-need planning helps end-users ... Sep. p74
Room at the top ... for users ... Oct. p80
When MIS organizations mature ... Nov. p25
How to keep your projects on the go ... Nov. p44
Tough to boost meeting productivity ... Dec. p23

Legal issues

Have gavel, will travel ... Feb. p26
When once-happy partners part ... Mar. p23
Who'll track Polaris data? ... Apr. p23
What price (telephone) privacy? ... May p26
Enough of the legal battles (IBM PS/2) ... Aug. p19
Some 'innovative' EDP judgements in B.C. ... Aug. p23
Becoming a director can carry risks ... Sep. p29
Tidy practices count in hiring, firing ... Oct. p25
The Fujitsu-IBM software dispute ... Nov. p23
Flexible leases have many loopholes ... Nov. p28
Beware disclosing proprietary information ... Dec. p30

Manufacturing technology

Scanning lines for productivity ... Jun. p52
EDI fights 'information float' ... Jul. p55
Concept to prototype by desktop CAD ... Aug. p36
Managing maintenance with computers ... Aug. p48
Let's be realistic about robotic use ... Sep. p32
If CIM's the answer, what's the question? ... Sep. p42
What to know about software systems ... Sep. p52
Automating for inventory control ... Sep. p59
EDI set for bigger manufacturing role ... Sep. p64
What price factory automation? ... Nov. p39

Market analysis/data

Downsizing marks new industry direction ... Feb. p69
Turning things around at IBM ... Mar. p25
Wall Street's view of IBM ... Apr. p25
Megabit memory race heats up ... May p23
Motorola unveils RISC microprocessor ... Jun. p32
The changing fortunes in leasing ... Jul. p27
EDI fights 'information float' ... Jul. p55
Tossed, but not forgotten (used micros) ... Aug. p44
Interview with Ron Smith, Honeywell Bull ... Aug. p53
1988 Canadian Computer Show preview ... Oct. p41
Industry review and forecast: 1989 ... Dec. p32

Microcomputing

The facts on PC-based fax ... Mar. p60
PCs gear-up for AI delivery ... Apr. p51
SQL will change desktop DBMS ... Jul. p48
Compaq units quicken 386 pace ... Aug. p13
Tossed, but not forgotten (used micros) ... Aug. p44
DEC-Compaq agreement ... Sep. p4
Putting EISA into perspective ... Nov. p34
What's 'NeXT' in your PC future ... Nov. p53

Minis/mainframes

DEC boosts large systems line ... Apr. p77
Mainframes get performance boost ... Jun. p25
'Midframes' buttress IBM market push ... Aug. p24
DEC-Compaq agreement ... Sep. p4
Will they ever meet? (IBM S/3X, S/370) ... Oct. p27

Office automation

How to trim the print sharing problem ... Feb. p44
Electronic publishing helps Microtel ... Feb. p71
The facts on PC-based fax ... Mar. p60
Clearing the network confusion ... Apr. p30
Before selecting a local area network ... Apr. p56
Future of multi-user desktop publishing ... Apr. p84
Lots of wire in your future ... May p27
Using PBX for data ... Jun. p44
Are you ready for computer conferencing? ... Jul. p31
Interface gives Unix an 'open look' ... Aug. p40
What's ahead for electronic mail? ... Sep. p76
Why the 'second era' is coming (open standards) ... Oct. p31
New moves towards wider functionality ... Oct. p34
LANs gain ground in integration race ... Oct. p91
OS/2 vs. Unix for office users ... Nov. p32
More effective Decision Support Systems ... Nov. p71
Posix may bring application portability ... Dec. p29

Peripherals, hardware

New technologies brighten color printing ... Apr. p52
Taking the right view of monitors ... Jun. p40
'Edge emitter' for laser printing ... Jul. p46

Software

Watch SAA become a blueprint ... Feb. p23
Oracle RDBMS at Volkswagen Canada ... Feb. p41
Knowledge engineering without the mystery ... Feb. p60
CASE: programmers an endangered species? ... Mar. p27
What's next in development tools? ... Mar. p64
Putting the 'maintenance myth' to rest ... Mar. p70
What's behind those maintenance charges? ... Mar. p71
Software survey at IBM sites ... Apr. p33
DP tracks secrets of dinosaurs ... Jun. p56
Tracking moving data ... Jun. p64
Which way for the Fourth Generation? ... Jun. p69
Giving applications new life ... Jul. p40
SQL will change desktop DBMS ... Jul. p48
RDBMS helps run refineries ... Jul. p49
Free trade and Canada's software industry ... Aug. p19
Interface gives Unix an 'open look' ... Aug. p40
Unix moves still puzzling ... Sep. p27
What to know about software systems ... Sep. p53
What's ahead for automated operations? ... Sep. p57
Technology gap widens into chasm ... Oct. p32
Market predictions missed the mark ... Nov. p30

Storage and memory

Helical scan recording for mass storage ... Feb. p32
Disk drive head technology ... Mar. p40
RCMP finds a COM solution ... Mar. p57
How reliable is your data? ... Apr. p80
Megabit memory race heats up ... May p23
Mass storage is in the cards ... May p45
What's in store for DASD? ... May p50
Measuring performance of cache controllers ... May p58
'Digital paper' combines tape, optical facets ... Jun. p67

Systems design

What's next in development tools? ... Mar. p64
Ready for the SI boom? ... Jun. p96
Why the systems approach failed ... Jul. p25
DTP: make design fit corporate profile ... Aug. p54
How far towards systems harmony? (OSI) ... Sep. p36
DEC boosts transaction processing ... Sep. p51
Automating for inventory control ... Sep. p59
How to keep your profits on the go ... Nov. p44

Continued on page 28

DECUS Canada Symposium 22nd Annual

DECUS CANADA

DECUS, (Digital Equipment Computer Users Society) would like to extend an invitation to you to attend their annual symposium.

Location: Hyatt Regency Hotel
Vancouver,British Columbia
Date: February 20 - 24, 1989
Contact:: Anne Murakami
DECUS Canada
505 University Avenue
Toronto, Ontario
M5G 2H2

416/597-3462

This year's program will host a series of one day seminars and hourly sessions as well as site tours, special interest group sessions and the Digital Demo Area which will display the latest and greatest in Digital technology. Various third party vendors have been invited to display their software products as well. The seminars and sessions cover a wide range of topics ranging from general interest to highly technical to management issues and covering all aspects of Digital products and services and its compatibles.

A series of activities have also been planned for your leisure time with an exceptional banquet specifically planned for our Delegates in mind.

For additional information and a copy of our complete program, please feel free to write or call Anne Murakami at the address above.

EDITORIAL INDEX

More effective Decision Support ..... Nov. p71

User issues

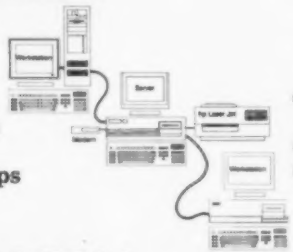
Coping with the computer security threat ..... Feb. p37
How to trim the print sharing problem ..... Feb. p44
How reliable is your data? ..... Apr. p80
Is anyone listening? (telecom issues) ..... May p54
The art of managing for survival ..... Jun. p60
The changing fortunes in leasing ..... Jul. p27
Our technology needs a human face ..... Jul. p32
How to overcome DTP limitations ..... Jul. p52
Why science needs high-performance graphics .. Aug. p32
Tossed, but not forgotten (used micros) ..... Aug. p44
Unix moves still puzzling ..... Sep. p27
Are you ready for third-party maintenance? ..... Sep. p46
DEC-Compaq agreement ..... Sep. p4
Data-need planning helps end-users ..... Sep. p74
Why have data standards? ..... Nov. p56

Viewpoints

It's time to make tough choices ..... Feb. p90
ISDN bell may toll for thee ..... Mar. p92
Meeting the people challenge ..... Apr. p96
Let's avoid EDI roadblocks ..... May p80
Ready for the SI boom? ..... Jun. p96
Let's protect EFT customers ..... Jul. p68
The slide in R&D support ..... Aug. p68
It's time to automate security ..... Sep. p96
ISDN rules are urgently required ..... Oct. p116
Canadians sold computer industry ..... Nov. p80
Economy based on information technology ..... Dec. p76

MULTI-USER TURNKEY SYSTEMS

*Ethernet
*Various LANs
*Unix/Xenix
*UPS & Backups
*Software



NEC NOVELL D-Link LAN Smart

*Complete Financing
* Lease
* Rent

ONE STOP CELLULAR SERVICES

*Complete Line of Mobile &Portable Products
*Professional Installation
*Phones to fit any budget
